### Maths

Can you count the coins in each jar to find out how much money they contain? Remember to check which coins they are. Are you counting in 1's 2's 5s or 10s?

### Science/Theme - The Seasons

<b>Autumn</b>	September, October, November
<b>Winter</b>	December, January, February
<b>Spring</b>	March, April, May
<b>Summer</b>	June, July, August

Can you add these events to the correct season?  
You could add some of your own important dates in too!

Which season is your birthday in? What about the members of your family?

**Christmas, Easter, Halloween, Bonfire Night, Valentine's Day, Shrove Tuesday, New Years Day.**

This year the shortest day will be on December 21<sup>st</sup> and we have just had the longest day on 20<sup>th</sup> June.

Can you talk to a grown up about what this means? Can you find out how many hours of daylight there is on each day? What is the difference? Will it be light or dark at bedtime? Will it be light or dark when you get up?

Can you add the longest and shortest day to the right season?

## English

Think about our sounds for this week **ow** and **oa** and **o-e**.

Could you put some of these words in sentences?

slow	boat	bone	toast	stone	rose	home	pillow
float	rainbow	snow	coast	road	alone	goat	goal
phone	yellow	blow	coat	window	toad	wrote	grow

This is my example!

When I looked out of the **window** I saw a **rainbow**.

On the Oxford Owl website you can read Read Write Inc books for free! You could have a go at one of these to practise! <https://home.oxfordowl.co.uk/>
